Short Postponement

GRAND GIFT CONCERT Valley Educational Association.

T is with regret that the managers of this benevolent enterprise announce a postponement of the day of drawing to THURSDAY, NOV. 26th, but to those who are acquainted with the invariable custom explanation is unnecessary. Postponement is so generally the rule that the people could not be made to believe that it is not an absolute necessity in all cases, and this ineffaceable impression is the real and only reason why postponement has to be resorted to The public may now rest assured, however, that of the tray above given the Concert will be held, and the Drawing take place with the Gits proportioned—not in number but in value—to the tickets sold. The management feel confident of the entire success of the Concert, and again appeal to a generous public in behalf of a cause of such unitanthropy.

The mode of drawing will be exactly as described in all the advertisements. T is with regret that the managers of this benev

A REPRESENTATIVE AND CHAMPION OF AMERICAN ART TARTE!

Prospectus for 1875-Eighth Year. THE ALDINE, THE ART JOURNAL OF AMERICA,

ISSUED MONTHLY. "A Magnificent Conception, wonderfully carried out."

THE necessity of a popular medium for the rep-resentation of the productions of our great ar-tists, has always been recognized, and many at-tempts have been made to meet the want. The successive failures which so invariably followed each attempt in this country to establish an art journal, did not prove the indifference of the peo-ple of America to the claims of high art. So soon as a proper appreciation of the want and an ability to meet it were shown, the public at once rallied with enthusiasm to its support, and the result was with enthusiasm to its support, and the result was a great artistic and commercial triumph-THE ALDINE

ALDINE
THE ALDINE, while issued with all the regularity, has none of the temporary or timely interest
characteristic of ordinary periodicals. It is an elegant miscellany of pure, light, and graceful litersture; and a collection of pictures, the rareat specinens of artistic skill, in black and white. Although each succeeding number affords a fresh
pleasure to its friends, the real value and beauty of
THE ALDINE will be most appreciated siter it is
bound up at the close of the year. While other
publications may claim superior cheanness, as compared with rivals of a similar class, THE ALDINE
is a unique and original conception—alone and uns a unique and original conception-alone and unapproached—absolutely without competition in price or character. The possessor of a complete volume can not duplicate the quantity of fine paper and engravings in any other shape or number of volumes for ten times its cost; and then, there is the chromo besides!

The national feature of THE ALDINE must be taken in no parrow sense. True art is cosmopol-

The national feature of THE ALDINE must be taken in no narrow sense. True art is cosmopolitan. While THE ALDINE is a strictly American institution, it does not confine itself to the reproduction of native art. Its mission is to cultivate a broad and appreciative art tasts. one that will discriminate only on grounds of intrinsic merit. Thus, while placing before the patrons of THE ALDINE, as a leading characteristic, the productions of the most noted American artists, attention will always be given to specimens from for eign masters, giving subscribers all the pleasure and instruction obtainable from home or foreign and instruction obtainable from home or foreign

The artistic illustration of American scenery, original with THE ALDINE is an important fea-ture, at dits magnificent plates are of a size more appropriate to the satisfactory treatment of details than can be afforded by any inferior page. The ju-dicious interspersion of landscape, marine, figure, and animal subjects, sustain an unabated interest, impossible where the second of the state of the second and animas surjects, austain an unabated interest, impossible where the scope of the work confines the artist too closely to a single style of subject. The literature of THE ALDINE is a light and graceful accompaniment, worthy of the artistic features, with only such technical disquisitions as do not interfere with the popular interest of the work.

Although so natural, no one who sees this premium chromo will have the slightest fear of being bitten.

ANTI-BILLIOUS FAMILY PILLS.

These excellent Pitls will be found a sure remedy for acidity of the stomach, Indigestion, Habitual Constipation, Crainp Colic, Fever and Ague. This Constipation. Cranp Colic. Fever and Ague. This terrible and distressing disease can with from two to four doses be overpowered, and has in many cases effected a cure with one single pill. Every pill being an ordinary dose, renders them the cheapest medicine in the world, and their certainty of cure is unequalled. We have never found them to fail in cases of Jaundice and all Spasmodic Affections. They purify the blood and promote healthy action of the skin. They are purely vegetable and perfectly tree from anything that can do either permanent or temporary injury to the Stomach or Bowle, or to the general system.

These pills had their origin in France, where the medicinal science is far advanced, and were first made in this country by the lather of Dr. John Ocilig, a native of France.

The following letters from those who have tested Dr. John Oellig's Anti Billious Family Pille, are simply appended that you may see what people say and how they like them. When you have tried the medicine you will speak in the same manner:
